Rennes 2 University is launching its 2020-21 cultural season! A multi-disciplinary season, open to all which will hold many highlights and surprises.

The Cultural Office will unveil the program of this year's season at this launch party.

This season will explore themes that are dear to us all: the relationship we have with others, individual and collective freedoms, issues related to equality, violence and discrimination...

Shows, exhibitions, meetings and screenings will allow us to address these social and political issues through the eyes of artists and experts.
