

The Bienvenue Program: Applications are now being accepted

BIENVENÜE offers 75 two-year postdoctoral positions to international highly-skilled researchers. Co-funded by the EU Marie Skłodowska-Curie Actions, Région Bretagne and partner institutions, the programme aims to reinforce Brittany's research excellence and R&I regional politics.

Self-designed research project, interdisciplinary and intersectorial collaborations are BIENVENÜE fellowships key elements.

Interested in fostering regional research excellence in the following domains?

- [Maritime economy for blue growth](#)
- [Food economy for everyone to eat well](#)
- [Secure and responsible digital economy](#)
- [Health and welfare economics for a better quality of life](#)
- [Economics of industry for intelligent production](#)

Go to the [dedicated programme website](#) to find out more on these topics and how to apply.

The application deadline is March 15.
