

Rennes 2 University

International Week

Contenu sous forme de paragraphes

Thinking of going abroad? The International Relations Office of Rennes 2 University is organizing the 17th edition of the International Week at the Villejean Campus.

This event promotes international mobility and provides relevant information on university cooperation programs. Students and staff who are curious about mobility options in other countries will be able to gather important information and participate in meetings with students and staff who have had similar previous mobility experiences.
