

## Summer Academy "The Challenge of Equality in Sports"

Contenu sous forme de paragraphes

**The Continuing Education Office is organizing the 7th edition of the summer academy of the digital inter-university diploma "Gender Studies".**

The Summer Academy is open to all audiences interested in gender studies. This day proposes to analyze the paradoxes of sports. Considered to contribute to health and well-being, it is also too often a space for the expression of sexism, racism and homophobia.

We invite academics, institutional representatives and associations to this forum for dialogue in an effort to integrate principles and practices of emancipation and equality within the field of sports.
