

International Week

Contenu sous forme de paragraphes

The International Week takes place once a year and is the opportunity for students and staff to gather information about opportunities for going abroad in coordination with Rennes 2 University.

The week's programming will be enriching for those who have questions about mobility, with varied workshops planned on the following topics:

- existing exchange programs and programs within a particular department
- funding opportunities and mobility grants
- international internships
- language-assistant programs

Rennes 2 students wishing to exchange with other students (international or French students who have already completed mobility projects) can do so at the Cafe du Monde gathering on Thursday, November 14.

The full program can be downloaded on the right-hand side of this webpage.
