

## International Week

Contenu sous forme de paragraphes

**The International Week takes place once a year and is the opportunity for students and staff to gather information about opportunities for going abroad in coordination with Rennes 2 University.**

The week's programming will be enriching for those who have questions about mobility, with varied workshops planned on the following topics:

- existing exchange programs and programs within a particular department
- funding opportunities and mobility grants
- international internships
- language-assistant programs

Rennes 2 students wishing to exchange with other students (international or French students who have already completed mobility projects) can do so at the Cafe du Monde gathering on Thursday, November 14.

*The full program can be downloaded on the right-hand side of this webpage.*
