In order to help provide you with important information you may need during this second re-confinement, we've put together the below information for your perusal. More information is also available on the [Rennes 2 intranet in French](#).

Information on Health Resources for Students

Are you COVID-19 symptomatic or a contact case? A COVID screening center has opened at 6 rue d'Échange in downtown Rennes. A 12pm - 2pm slot has been created specifically for students. [Make an appointment](#).

Conditions: you be symptomatic, with or without a prescription, or be a contact case identified by the CPAM or the ARS. It is necessary to know one's French social security number for registration. In the case of positive test results for Covid-19, you must inform Rennes 2, and fill in this form online at the [ENT Intranet](#).

You can also send any questions to: [etudiant-covid19 \[at\] univ-rennes2.fr](mailto:etudiant-covid19@univ-rennes2.fr) ([etudiant-covid19\[at\]univ-rennes2\[dot\]fr](mailto:etudiant-covid19@univ-rennes2.fr)).

The Student Health Centre (SSE) remains open during this period of re-confinement. Appointments already scheduled will take place, consultation slots are open, and some consultations may take place by telephone. As a reminder, appointments with a health professional are part of the waivers to be able to travel during the reconfinement period. Do not hesitate to come to SSE if your attending physician cannot be reached, or for any request for information or advice. E-mail: [sse \[at\] univ-rennes1.fr](mailto:sse@univ-rennes1.fr) ([sse\[at\]univ-rennes1\[dot\]fr](mailto:sse@univ-rennes1.fr)) (for all requests for information and advice) / Telephone: 02 23 23 55 05 (to make an appointment)

The SSE provides free and confidential medical and social services and assistance to students. If you are in danger, you should immediately seek safety. In case of emergency, dial 17, or if you cannot speak, send an SMS to 114. You can raise the alarm at a pharmacy, which will contact law enforcement immediately.

I have an Erasmus mobility planned for Semester 2. Are there any changes that I should be aware of in terms of processes?

For now, we still hope to welcome exchange students next semester.

However, please be aware that due to the rapidly evolving health context, this could change depending on future university and government announcements. If you have any questions, please contact the International Office : sri-incoming [at] univ-rennes2.fr

Are international students enrolled in a French institution of higher education permitted to come to France during confinement?

Yes, the fact of being a student enrolled in a higher education institution in France constitutes an exemption that allows entry into the national territory. International students must then comply with the rules applicable to any non-French person authorized to enter the national territory with regard to tests. **With the exception of students from European Union Member States, international students must have taken a test within 72 hours before boarding or take one upon arrival at the airport.**

Reminder: for any travel on French territory or any travel to French territory, students must have the necessary certificates in French, available on the website of the [Ministry of the Interior](#).
