Rennes 2 University

Key European Research Projects

Currently, Rennes 2 University is involved in 5 research projects that have received support from the European Union : **Artisan** (developing the synergies between adaptation to climate change and biodiversity preservation), **Bienvenüe** (recruiting talented young researchers with a high international profile in Breton laboratories), **SCORE** (a Citizens, Equality, Rights and Values -CERV- program), **STAGE**: From Stage to Data (pioneering the nascent field of performing arts analytics) and **YEAH** (empowering children and adolescents to adopt healthier lifestyles).
