

Conference | Equality on the playground? (Equality Tuesdays)

Contenu sous forme de paragraphes

Discussion with invited guest and Geographer, Edith Maruéjols, whose work focuses on equality on the playground, youth leisure and public space. She created the research office L'ARObE (*Atelier recherche observatoire égalité*) and will be at Rennes 2 for this event where she will be sharing her insights on how we can help to drive change in the construction of gender relations in a society, starting with children and the common spaces they occupy.
