

## Information Meetings: BIENVENÜE Program

Contenu sous forme de paragraphes

The 2021 call for projects of the BIENVENÜE program, open to applications from January 4th to March 15th, offers 25 post-doctoral fellowships, co-financed by the European program MSCA-COFUND, the Brittany Region and partner institutions. It is possible to propose a basic or applied research project in any field, but this project must contribute to the new Brittany Intelligent Specialization Strategy - S3.

Several information sessions are planned in the coming weeks to help candidates prepare their applications. They will be held in English via the Zoom videoconference tool and will be recorded. The presentation material as well as the recording will then be available on the BIENVENÜE website.

Dates of the sessions

- Thursday, February 11 between 9:00 and 11:00 CET
- Thursday, February 25 between 15:00 and 17:00 CET
- Monday, March 8 between 16:00 and 17:30 CET
