

Sexual Health: An opportunity to have your questions answered and get informed

Contenu sous forme de paragraphes

Two Rennes-based community organizations, experts in sexual health and the prevention of HIV and STIs, will be present to provide students with important information on these topics. Each organization will hold a help desk, where students can discuss and receive information about sexual health and where they can get more information and/or be tested. Interpreters, speaking Arabic in particular, will be present to accompany non-French speaking students from the CIREFE.

Liberté Couleurs

Liberté Couleurs is an organization whose main objective is the development of prevention programs for young people, the promotion and support of initiatives to create healthcare materials. Their information desk on sexual health will enable you to come and exchange freely on topics like: sexuality, respect in relationships, contraceptive methods and protection, all in a playful way.

Family Planning

The Family Planning network is the largest group of organizations and activists offering sexual health services in France. They advocate for the right to sexuality education, access to contraception, risk prevention, abortion, and equal rights between women and men. They also fight all forms of violence and discrimination. For the occasion of the sexual health week, their organization will be on-campus to present their actions and resources!

A thematic selection of books at the university library

The university library (BU) will also offer a thematic selection of books on sexual health. In the meantime, feel free to browse a selection of materials online (link to be available soon).
