

Rennes 2 University

## International Green Hackathon

Contenu sous forme de paragraphes

For the 6th edition of #ERASMUSDAYS, join us and help to promote eco-education and a green future.

Rennes 2 University is working with partners to organize an international, video enrichment green hackathon. In order to participate, all you have to do is create and/or enrich a video on the environment. Videos can be submitted in any European language—if in non-European language, please add English subtitles.

**Prizes will be awarded for the best videos.**

The Green Hackathon kicks off on Thursday, October 13th and ends on Friday, October 14th (the date by which all video links must be received in order to be eligible for the competition).

If you are in Rennes on Friday, October 14th, please join us on Rennes 2's Villejean campus in Building L, from 16:00 CET in Amphi L3, when we will view the top 5 viral videos from the challenge and begin to choose a winner. Or you can again join us on line here: <https://us02web.zoom.us/my/cevain>.

**Winners will be announced Friday, October 14th @ 17h30 CET.**

**\*\* The full contest rules are available [here](#). \*\***

Please read them carefully if you would like to participate and good luck!
