

Protect Integrity Online (PIO)

Project Description

PROtect Integrity Online focuses on researching, developing, implementing and evaluating the best ways to deliver integrity education to professional and elite level athletes, particularly related to combating match fixing and corruption in sport.

The project will carry out research tasks in order to create recommendations and online educational material and deliver the match fixing education to at least 5,800 athletes in Europe, through the blended face-to-face and online approach.

Project Details
