

Plus qu'une fac: The New Rennes 2 University Podcast

Discover a student voice each month, sharing important stories.

In the very first episode, listeners meet Mine, a passionate and dedicated student. Mine is a key player at *L'Épicerie gratuite*, an association committed to combating food waste and supporting students in need. Through her voice, we hear stories of giving and receiving, resilience, and the vital work of redistributing surplus food to students three times a week on the Villejean campus.

"More Than Just a University" goes beyond academics to reveal the personal and collective experiences that make Rennes 2 unique. Each episode promises a deep dive into themes like housing, community activism, and self-discovery, all told from an intimate, student-centered perspective.

Tune in to discover how Rennes 2 is more than just a place to study – it's a space to grow, connect, and make a difference.
