Rennes 2 University

Rennes 2 University Podcast: A third episode now available

Discover a student voice on important things every month. In this third episode, Jos tells us a story of sport and hope.

Rennes 2 University is much more than just a place to study. In each episode, a student from Rennes 2 opens up about their experiences—the choices they make, the people they meet, their fears, and their dreams—during this pivotal time in life when they start to shape their identity.

In this episode, Jos tells his own story. At the age of 22, in a DIGISPORT master's program, he is working on a research project to help children with cancer through a virtual reality game.
