

Week for Ecological and Social Transition at Rennes 2: Acting Together for a Sustainable Future

By fostering awareness, encouraging responsible practices, and supporting community initiatives, the university plays a key role in shaping a more sustainable and equitable future for its students and society as a whole. Our commitment aligns with broader efforts to balance economic development, social cohesion, and environmental protection.

In this spirit, Rennes 2 is organizing a week of activities from March 31 to April 4, dedicated to ecological and social transition. This event will feature workshops, conferences, and collective actions to explore concrete solutions for a more sustainable and united world.
