RENNES 2

About

EMERGE is a unique opportunity to draw on the diversity of the partner universities to develop innovative, cross-disciplinary training and research programmes, promote multilingualism and foster social inclusion. It will also help to increase the mobility of students and staff.

EMERGE aims to develop innovative, multi-disciplinary training programmes. It will not only enable Rennes 2 University to showcase its expertise in arts, humanities, social, and sports sciences but will also enrich its practices by partners' shared experiences.

This is why here in Rennes 2, we don't see EMERGE as a one-shot initiative but really as a long-standing commitment and a structuring project for the University.
