

2026-2027 Cultural Season Launch at Rennes 2!

2026-2027 Season Presentation and Concert

This year, we call for unity: get together, feel as a group, and create a common space for meetings, emotions, and shared thoughts.

We will reveal a brand new season closely associated with both the university community and local players. It will be open to all, and will create a dialogue between disciplines, artistic forms, and ideas in order to better enlighten current times.

Concerts, shows, exhibitions, meet-and-greets... Discover artworks, artists and ideas that disrupt, question, or shift the gaze, and urge you to see, hear, and feel differently.

The inauguration will continue with a concert by Louise Papier, from the 12th edition of the Tremplin de musiques actuelles *À vous de jouer !*.

Shared drinks. The evening will end with a drink in the hall of the Tambour.
