

Exploring Joint European Degrees in Regional University Network - European University (RUN-ED)

Presentation

RUN-ED is a three-year Erasmus+ project coordinated by the Technological University of the Shannon (TUS) in Ireland and linked to the RUN-EU European University alliance and bringing together higher education institutions from across Europe to explore and test pathways towards the European degree label.

Rennes 2 will contribute through the Erasmus Mundus Joint Master programme TELME – Teaching Languages in Multicultural Environments (<https://telme.hypotheses.org/>) by testing how existing joint programmes can meet European degree label requirements, addressing issues such as institutional readiness, quality assurance, mobility, employability and student support.
